PROFESSIONAL SUMMARY

Data Analyst with experience across data analytics, cloud administration, and consulting in enterprise environments. Skilled in transforming complex datasets into actionable insights using Excel, SQL, Python, Power BI, and Tableau, with strengths in data quality, dashboard development, KPI reporting, and stakeholder communication.

TECHNICAL SKILLS

Languages	Python, SQL
Data Analysis	Excel, Power BI, Statistical Analysis, Tableau, Data Visualization, Presentation of Insights
Visualization & BI	Power BI, DAX, KPI Dashboards, Business Intelligence Reporting, Data Collection & Organization, Data Cleaning & Validation, Data Import & Transformation, Data Modeling, Performance Optimization
Tools & Technology	Excel (Pivot Tables, Charts, Dashboards), PowerBI, Tableau, GitHub, Claude, ChatGPT, Database Management

INTERNSHIP EXPERIENCE

Data Analyst Job Simulation

March 2025 – August 2025

Deloitte

- Wrote SQL queries to extract, filter, and aggregate data from relational databases for analytical reporting.
- Analyzed large-scale datasets to identify trends and patterns, delivering insights that informed strategic business decisions.
- Built interactive dashboards and visualizations in Power BI and Tableau, translating complex findings into clear stakeholder presentations.
- Cleaned, transformed, and validated data across multiple projects; with cross-functional teams to define business-aligned KPIs.
- Automated Excel reporting with VLOOKUP, Pivot Tables, and Data Validation, reducing manual effort by 40%.

Consultant Job Simulation

June 2025 – August 2025

Accenture

- Analyzed client business processes, performed gap analysis, and recommended data-driven improvements for digital transformation initiatives.
- Performed data cleaning and validation to improve dataset accuracy before analysis. Prepared structured reports summarizing findings to support data-driven decisions.
- Implemented security and compliance best practices, monitored system metrics, and created automated alerts for proactive issue resolution.

PROJECTS

Exploratory Data Analysis

Python | GitHub

- Audited and cleaned a 6,120-row e-commerce dataset by resolving duplicates, mixed date formats, and invalid values; documented an audit-to-clean-to-explore workflow.
- Delivered category-, city-, and payment-method-level revenue and correlation analysis post-cleaning, demonstrating a full data-quality-to-insight workflow valued in analyst screening rounds.

Excel Retail Sales Dashboard

Excel | GitHub

- Built a retail sales dashboard with SUMIFS/SUMPRODUCT-driven reporting, KPI cards, and native charts for interactive sales monitoring.
- Visualized results with 3 native Excel charts (bar, line, pie) linked directly to summary ranges for one-click refresh reporting.

HR Attrition Analysis

PowerBI | GitHub

- Modeled and analyzed a 1,600-employee HR dataset in Power BI, covering department, tenure, income, job satisfaction, overtime, and promotion history to diagnose attrition patterns.

FMCG Sales Insights

Python, SQL, Power BI | GitHub

- Analyzed an 18,000-row synthetic FMCG dataset using 10 SQL queries, Python EDA, and a Power BI build guide focused on sales performance, seasonality, and discount ROI.

EDUCATION

Bachelor of Science in Information Science/Studies

August 2022 – July 2025

Chaudhary Charan Singh (CCS) University, Uttar Pradesh

Intermediate Education

March 2020 – March 2022

Tagore Shiksha Sadan Inter College

CERTIFICATIONS

- Data Analysis – Great Learning Academy Certificate
- PowerBI Data Analyst by Skill India
- Accenture Consultant Job Simulation Certificate
- Deloitte Data Analytics Job Simulation Certificate
